

Application Form for the International Market

Kiel Week 2025

From 21 June to 29 June

The "International Market" is still the only one of its kind in Germany: around 30 stands represent their respective countries visually, culturally and gastronomically. Entertainment is provided on the city hall stage, located at the centre of the area, during the day by folklore groups, local heroes and top international acts in the evening. With over 10,000 visitors a day, the International Market is one of the largest and most popular event areas at Kiel Week.
